Stereotyping

A stereotype is a judgement about someone based on how they look.

Examples of stereotypes:

All girls like pink.
All girls like dancing.
All girls like to dress up.
All girls act like babies.
All girls cry a lot.

All boys play football.
All boys are smelly.
All boys are strong.
All boys are naughty.
All boys like blue.

Stereotyping is a bad thing because…

She's going to be rubbish at football.

I won't dance because everyone thinks it is weird for a boy to love dancing.
